XELLING FOR HILL. Democrats Will Renominate Him

Unanimously.

Arrival of the Advance Guard in Buffalo This Morning.

What the Convention Will Probably Do To-Morrow Afternoon.

BUFFALO, Sept. 11,-The advance guards of the Democracy of the State have arrived and the hotel corridors are thronged with wellknown party men. There promises to be a larger attendance at the convention than was anticipated, and every one is wondering how

the crowds can be taken care of. The International Fair has brought crowds of strangers to the city, and now the Democratic pilgrims are pouring in by every train. The local Democratic Committee has arranged for special trains for Niagara Fails, and hundreds of Democrats will have to go the Fa.ls for hotel accommodations.

The convention will be called to order at noon to-morrow and it will probably be a very harmonious pody. Gov. Hill will be un animously renominated by acclamation. There is no opposition to him and no opponent has so far materialized. Lieut .-Gov. Jones will also be renominated, and John Clinton Gray, who is now a Judge of the Court of Appeals by appointment, will be

the Court of Appeais by appointment, will be nominated for that Court.
The platform will not differ much from the platforms of 1885 and 1887. There may be a little change in the excise plank. It may be touched up to meet the suggestions of Gov. Hill and to follow his acts as Governor.
The delegates from the cities are opposed to a backdown on the excise question.

# NO NEW CAPTAIN JUST YET.

#### There Is More Red Tope, and Besides Commissioner Voorbis Is in Buffalo.

Owing to the absence of Commissioner Voorhis at the Democratic State Convention there is no meeting of the Police Commissioners to-day, and the selection of a Captain to succeed the late Charles McDonnell goes over till Friday at the earliest.

Meantime it is hoped that Secretary Lee Phillips, of the Civil-Service Commission, will find time to forward an eligible list of the three highest rated candidates.

The choice is in the kands of Mr. Mc-

Lean, and it is an open secret that Sergt.
Thompson, of the Sixth Precinct, is his
preference, with only Farley, Thompson and
Creden to select from.
Before he left for Buffalo Commissioner

Voorhis put himself on record in opposition to the civil service decision that eligible lists for commissioned offices are of five years' duration. He favors a fresh competitive examination for each recurring vacancy, so as to introduce the best and freshest blood in e department. Fully fifteen Sergeants await an opportunity

to show the civil service examiners how much book knowledge they can exploit, and every one of them feels that he is just the man for a captainey.

#### They Leave Early and in a Happy Mood for the Democratic Convention.

The Grand Central Depot, in and about the waiting-rooms of the Hudson River road especially, presented a scene of bustle and confusion unusual for the hour of 7 o'clock this morning.

Handsome, stalwart, well-dressed men elbowed one another, cracked jokes, and appeared to be in the best of humor with them.

Every one who saw them knew who they were. They were the County Democracy delegates to the State Convention, who will add their voices to the general hail that will welcome the nomination of a Democratic candidate for Governor.

Like a troop of jolly schoolboys they finally boarded the 7.39 o'clock train and started for Buffelo. They will dine at Utica.

# INSPECTOR STEERS'S BIG HEART.

This Orphan and Destitute Walf Found at Pelice Hendquarters.

Annie Kelleher, an orphan, pretty and nighteen years old, left her home in Albany on the day host and arrived here last night bound for Wilmington, Del., to visit her uncle. On the boat her trunk was burst open by reckless handling, and she was compelled to pay \$1 for a strap to hold it together.

Other little incidental expenses reduced her surplus to \$1.50 less than the cost of a fare to Wilmington. She applied to the Association for the Relief of Friendless Girls, near

the Battery, and was informed that nothing could be done for her. She wandered along the river front and met a policeman, who took her to pier A, and she was sent to Police Headquarters, where she stayed overnight with Matron Webb. This morning her story was told to Inspector Steers and his great sympathetic heart was

moved.
"Poor girl," he said, "she was the fond daughter of a good mother, and who knows when one we fove may be situated similarly."
Sutting the action to the word, the benevolent Inspector handed Annie more than enough money to meet her expenses and all necessary contingencies, and sent Policeman Interman of the Steamboat Squad to see that she was sent safely on her lonely journey.

But the Mystery of the Crime is Still Unsolved.

Attacked From Behind and Robbed of His Money.

Broker Daniel H. Bennett returned to consciousness this morning, but the mystery which surrounded the murderous asseult upon him at his home on Jersey Heights Saturday night remains apparently as impen-

He has made a statement, but says that he knows absolutely nothing of the assault. An Evening World reporter was one o the earliest callers at the Bennett residence in Forrest street this morning and inter-

viewed the son, Augustus, who has been suspected as the possible assailant of his father. The young man said that at about 4 o'clock this morning he awoke and went down to his father's room, where he found Roundsman McIntyre, of the Fifth Precinct, who had been detailed to watch at the old gentleman's

Soon after old Mr. Bennett awoke talkative and apparently as well mentally as before the assault.

He said, "I feel better," and then remarked, as he put his hand to his head : 'My head feels sore." A few moment ater he said, still talking of his wound :

"May be I hit it on the head-board. roke up in the night and felt it hurt. At 5 o'clock he asked what day it was, and, being fold that it was Tuesday, said that he remembered coming home Saturday, and then "I remember everything, but can't talk it."

After this he fell asleep, waking at 6.50, fully conscious, and related his experience of

fully conscious, and related his experience of Saturday in answer to his son and Roundsman McIntyre. He said:

"I left the office at 2 p. M. Saturday and came directly home. I spent the afternoon in the house and took supper here. Lucy was here. I went to bed at 9 o'clock."

"When I came into the house in the afternoon left the outside vestibule door open, but the inside door was locked. I den't know whether I left my bedroom door open or not. I never lock it."

When told that he had been murderously assau ted, Mr. Bennett asked for his clothing and discovered the robbery of his watch and money.

There were several compariments in the pocketbook and young Bennett said that his father kept large bills in one and small bills and change in another. The thief, in his haste, he thought, had only taken the roll of large bills.

So well did Mr. Bennett feel this morning that he got up and took a bath and ate a hearty breakfast.

hearty breakfast.

Augustus seemed very much overjoyed at his father's recovery and told The Evening Workly reporter that he had eaten his first meal since the unfortunate affair this morning.

In his report to Capt. Smith of the old gentleman's statements, Roundsman Mcintyre says that Mr. Bennett stated that he awoke some time Sunday morning and felt blood on the pillow.

He said also: "I do not know who struck me or with what I was struck. They probably got in the front door, for I don't think I shut it when I went to bed."

When Chief of Police Murphy was notified of Mr. Bennett's regaining conscious-

street with Dr. Wilkinson to interview him, with a view to getting some clue to the perpetrator of the crime.

The statement which he obtained was almost identical with that made by the injured man to his son and Roundsman McIntyre earlier in the morning.

The additional information he obtained was that the colored servant. Lucy Fleming, was in the house when he went to bed.

He persisted in repeating three or four times: "The girl had nothing to do with it. We know her to be perfectly honest."

Ma. Bennett showed the Chief how he usually lay abed, and it demonstrated how a man could easily deal the blow which came near costing him his life, while he lay in this position.

The old gentleman said that he had no enemies who could have any possible motive for

Chief Murphy had no theory to advance in view of the new developments in the case and carefully refrained from furnishing the press with a clue which is in his possession, and which may lead to the arrest of Mr. Bennett's assailant.

This was obtained by THE EVENING WORLD reporter in an interview with the servant-girl, Lucy Fleming, this morning, She said that about 8 o'clock Saturday morning an expressman came to the house and delivered a package of coffee from New York, Mr. Bennett saw him coming, went to the door, admitted him to the house and went out with him, talking all the while on

general topics.

Higbee was committed to await examination this morning.

"When you entered into the business you knew it was idegal, and I can fine you or imprison you for a year.

"Smith, your case is more aggravated than
the others, and I sentence you to pay a fine
